Professional Summary

Experienced Software Engineer of 2+ years of experience with a proven track record in building and maintaining websites using HTML, CSS, JavaScript, ReactJs, React Native and Node.js. Known for being a strong team player with a global mindset, adept at problem-solving, and possessing a keen eye for detail, ensuring bug-free code delivery. Passionate about writing clean, efficient code and demonstrating a high aptitude for identifying and resolving issues promptly.

Technical Skills

- JavaScript
- TypeScript
- ReactJs
- ReactNative
- HTML / CSS / Tailwind
- NPM/Yarn
- NodeJs
- ExpressJs
- Mongo DB
- Mongoose
- Docker
- AWS

Work Experience

Daffodil Software Pvt Ltd   **Jan 2022 – Present**
Associate Software Engineer   *Haryana*

- Led research and development initiatives to integrate and optimize CI/CD and PMT flow by creating robust APIs within a NodeJS and Express environment, which increased efficiency by 20%.
- Written high-performance, reusable, and reliable code following industry standards, with increase in page load speed and a UI component library for 30% faster project implementation.
- Dynamic collaborator in cross-functional teams ranging from 5 to 30-40 members. Engaged with Business Analysts, Designers, Talent Associates, and Managers, fostering synergy for holistic project triumph.
- Utilized React Hooks to streamline state management, reducing 30% of boilerplate code and enhancing the efficiency of component logic, leading to a 25% improvement in overall code readability and maintainability.
- Ensured code quality through the use of static code analysis tools and comprehensive unit testing, contributing to a 15% reduction in potential bugs and a 20% increase in the overall reliability and robustness.

Projects

Locomo | *ReactJs, React Native, Node, Javascript, Express, MongoDb, Mongoose*   **April 2023**

- ∗ Locomo is an in-house product designed to provide businesses with a structured framework, offering a comprehensive suite of tools to streamline operations and improve efficiency.
- ∗ Led the implementation of route management, authentication, and authorization, playing a key role in crafting the backend architecture using Node.js and MongoDB, increase code readability by 30% and writing code by 50%.
- ∗ Designed a React context for secure API handling , encompassing authentication , authorization , versioning , and intelligent management of access and refresh tokens.
- ∗ Contributed to the development of an auto-generating boilerplate code system adhering to organizational standards for both frontend and backend applications.

Unthinkable Components | *React, React Native, HTML/CSS, TypeScript*   **May 2022**

- ∗ Unthinkable components are in-house components used by our organization.
- ∗ Developed Form component using Formik npm, adeptly managing diverse project requirements such as nested forms, validations, computations, ensuring a flexible and efficient solution..
- ∗ Developed reusable and efficient components like Chips, Stars, Tabs, Cards and created stories using Storybook.

Education

Rungta College of Engineering and Technology   **Aug 2018 – July 2022**
B Tech   *Bhilai, Chhattisgarh (INDIA)*
